James Peter Dougan

interactive designer

dob 21/06/1988

personal profile

An enthusiastic, motivated and observant designer who is always ready for a challenge, is open to new ideas and is keen to start new projects.

skills

- Excellent recognition and grasp of good design practice, particularly with interaction and usability in mind, and strong attention to detail.
- Good time management, and the ability to adhere to strict deadlines.
- Proven organisation, communication and presentation skills, from the initial concept stage through to client meetings and project completion.
- Extremely self-motivated and works as well within a team as independently.
- Wide spanning cultural awareness and understanding, a broad interest in different mediums and experience in photography and video.
- Great at making tea and coffee.

experience

fillanew.co.uk

Working with a new toiletry and recycling business, tasked to create their brand identity, to design and deliver print collateral and to create fillanew's online presence. The website and logo design are minimalist in style, and the site incorporates their diverse social media presence, allowing for an integrated, clean and clear way for fillanew to communicate.

Freeth Cartwright LLP

Approached by one of the UK's leading national law firms, and asked to redesign their website. The project involved regular meetings with staff within the firm, and concluded with a presentation to a panel of partners. The need to visualise the company's new ethos was implemented through the creation of new static and animated imagery, navigational restructuring and a design overhaul of the current website, creating a much cleaner, more spacious and minimalistic online presence.

education

BA (Hons) First in Interactive Design
De Montfort University (July 2010)

BTEC Diploma in Foundation Studies (Art and Design) with Distinction
BTEC Certificate in Visual Arts
Thames Valley University (July 2007)

10 GCSEs, 3 A-Levels, 1 AS-Level
St Bernard's Catholic Grammar School (August 2004 / 2006)

software

- Fluent: Adobe After Effects, Dreamweaver, Illustrator, Photoshop, Premier Pro, Microsoft Office, HTML, CSS.
- Proficient: Adobe Flash, InDesign.
- Working knowledge: Cinema 4D, Wordpress, AS2/AS3, Javascript.

artistic interests

I enjoy watching independent and world cinema, and listen to a wide range of music from electronica to 30's swing jazz. I am also a passionate physics geek, influencing my interest in new forms of media and facilitating my experience with photography and video. I often visit museums, relish the chance for a spot of watercolour painting, and also have a collection of model owls.
